MPO Name: San Diego Association of Governments (SANDAG)

Amendment Number: 9 to the 2004 RTIP

Amendment Type: Formal

**Number of Projects in this Amendment:** There are 24 projects in this amendment.

**Brief Description of the Amendment:** 

See attached report which includes tables and resolution. CTIPS has been updated.

Attachment includes fiscal constraint analysis.

**Board Resolution**: See signed resolution

**Conformity Determination**: See resolution attesting to conformity.

**Financial Constraint**: See Tables 2, 2a, 2b and resolution attesting to financially constraint.

MPO's CTIPS Approval Date: June 3, 2005

#### San Diego Association of Governments

## TRANSPORTATION COMMITTEE

June 3, 2005

AGENDA ITEM NO.: 3

**Action Requested: APPROVE** 

2004 REGIONAL TRANSPORTATION IMPROVEMENT PROGRAM (RTIP) AMENDMENT NO. 9

File Number 4000600

#### Introduction

The SANDAG Board, at its meeting on July 23, 2004, adopted the 2004 Regional Transportation Improvement Program (RTIP), the five-year program of major transportation projects in the San Diego region covering the period from FY 2005 to FY 2009. In response to the voter-approved *TransNet* extension, the Board approved the initial *TransNet* Early Action Program on January 28, 2005, which included Tier 1 and Tier 2 projects focusing on freeway expansion and managed lane projects. Recognizing the multimodal characteristics of these corridor projects, the Board, at its May 27, 2005, meeting, approved the inclusion of three new transit projects into the Early Action Program (EAP).

Federal regulations require the RTIP to be fiscally constrained, that is, a region must demonstrate that sufficient revenues are available to implement the proposed projects programmed in the RTIP. This amendment incorporates the new transit projects, makes revisions to existing projects, and validates that the 2004 RTIP is fiscally constrained.

#### Recommendation

The Transportation Committee is asked to approve Resolution 2005-26 approving 2004 RTIP Amendment No. 9 (Attachment 1).

#### Discussion

This amendment reflects changes to existing projects and the inclusion of three new transit EAP projects. The proposed changes are described below. Table 1 provides the details for the projects being amended; Table 2 shows the total RTIP program; and Tables 2a and 2b provide the analysis demonstrating that the 2004 RTIP is fiscally constrained.

#### **Project Amendments**

#### **Caltrans**

I-5 HOV/Managed Lanes (CAL09):

Transfers the construction of the auxiliary lane and interchange at Lomas Santa Fe from the City of Solana Beach (see SB01 below) to Caltrans since these tasks are an integral part of the overall I-5 HOV/ML project. Additional *TransNet-MC* (Major Corridors) funds are being programmed to

implement specific segments of the ML project (i.e., HOV extension to San Elijo Lagoon). Total programmed increases to \$91.2 million.

#### I-15 Managed Lanes Middle (CAL18):

Adds \$11.9 million of Congestion Mitigation Air Quality (CMAQ), \$23.9 million of Regional Surface Transportation Program (RSTP), and \$37.3 million in *TransNet-MC* funds to cover cost increases associated with various aspects of this project, including purchase of the moveable barrier, noise barrier construction, and direct access ramps for future Bus Rapid Transit (BRT) services. Additionally, the implementation of the electronic toll collection and violation enforcement system (see SAN04 below) will be transferred as part of this overall project. The *TransNet* funds programmed for this project are provided as a loan to be repaid through the programming of a like amount of state and/or federal funds (plus interest costs) toward a *TransNet*-eligible project in the future. Total project increases to \$419.7 million.

#### I-15 Managed Lanes North & South (CAL18A/B):

Moves *TransNet-MC* funds from FY 2005 to FY 2006. Total programmed remains \$92 million (\$30 million for north, \$62 million for south).

#### SR 52 E&F (CAL26):

Moves TransNet-MC funds from FY 2005 FY 2006. Total programmed remains \$365.6 million.

#### SR 52 HOV/Managed Lanes (CAL26A):

Moves *TransNet-MC* funds from FY 2005 to FY 2006 and adds funding for both the westbound and eastbound auxiliary lanes from I-15 to Mast Boulevard. Total project programmed increases to \$67.4 million of *TransNet-MC* funds.

#### SR 76 Middle (CAL29):

Moves TransNet-MC funds from FY 2005 to FY 2006. Total programmed remains \$25.1 million.

#### SR 76 East (CAL29B):

Moves TransNet-MC funds from FY 2005 to FY 2006. Total programmed remains \$8.4 million.

#### SHOPP Minor Projects (CAL45):

Adds \$12.3 million in state minor program in FY 2006. This program is administered by Caltrans and funded by the state. Total project increases to \$12.9 million.

#### SHOPP Lump Sums (CAL46A/B/D/E/H):

Caltrans periodically updates the State Highway Operations and Protection Program (SHOPP). There are eight SHOPP categories. This amendment revises funding to five programs. The total programmed for each category is as follows: \$24.8 million for Operations/Mobility (CAL46A); \$14 million for Collision Reduction (CAL46B); \$51.2 million for Bridge Preservation (CAL46D); \$25.8 million for Roadway Preservation (CAL46E); and \$3.1 million for Transportation Enhancement (CAL46H).

I-5/SR78 Direct Connectors (CAL71):

Moves funding from FY 2005 to FY 2006 and FY 2007. Total programmed remains \$1 million.

I-805 HOV/Managed Lanes (CAL78):

Moves TransNet-MC funds from FY 2005 to FY 2006. Total programmed remains \$26 million.

#### **SANDAG**

I-15 Managed Lanes Value Pricing (SAN04):

Replaces the source of matching funds for the federal CMAQ funding in FY 2006. As noted under project CAL18 above, the actual implementation of toll collection and violation enforcement has been incorporated with the I-15 ML/HOV Middle project. Total project for this phase decreases to \$2 million.

#### Traffic Signal Projects (SAN10):

Out of the \$30.1 million of CMAQ funds programmed in this lump sum, \$29.2 million has already been obligated. The remaining \$927,900 is being programmed for the following projects: \$42,000 for signal retiming along Centre City Parkway (City of Escondido); \$51,000 for signal Interconnect improvement along Navajo Road (City of San Diego); \$201,000 for the Regional Arterial Management System (SANDAG); \$184,500 for signal interconnect improvements along Del Mar Heights Road (City of San Diego); \$26,000 for signal retiming along Fletcher Parkway/Broadway Boulevard (City of El Cajon); \$264,000 for signal interconnect improvements along Jamacha Boulevard (County of San Diego); \$93,400 for signal interconnect improvements along Cuyamaca Street and Trolley system (City of Santee); and \$66,000 for signal interconnect improvements for the South Bay Interconnect System (City of San Diego, City of Chula Vista, and City of National City). Although there is no change to the programmed funds (\$30.1 million), this amendment is to recognize the selection of the projects.

#### I-15 BRT (SAN26):

Expands the scope to include additional stations, enhanced bus stops, direct access ramps, and restructuring of express bus services along the I-15 corridor and in the Mid-City area of San Diego. This addition is one of three early action BRT projects approved by the SANDAG Board at its meeting on May 27, 2005. Total project increases to \$118.2 million.

#### Mid-Coast Super Loop (SAN46):

This new early action transit project would provide high quality bus transit circulator service in the University City area making connections to existing local regional transit services, as well as the future Mid-Coast light rail transit. It also includes extensive transit priority treatments and customer amenities. This new project is the second of three early action BRT projects approved by the SANDAG Board at its May 27, 2005, meeting. The total programmed is \$23.1 million in *TransNet-MC* funds.

#### South Bay BRT (SAN47):

This new project is the third early action BRT project that would provide services in Otay Ranch, National City, and downtown San Diego via I-805 and SR 94. The \$28.9 million in *TransNet-MC* funds would provide for the design and construction of transit stations, transitways, and the purchase of 12 new vehicles.

#### Environmental Mitigation Program (EMP - SAN48):

This new project is a lump sum program for environmental mitigation related to the implementation of *TransNet* Early Action Program, including I-5, I-15, I-805, SR 52, SR 56, SR 76, the Mid-Coast light rail, and early action BRT projects. Based on the Implementation Guidelines approved by the Board in September 2004 and the estimated timing of the implementation of the Early Action projects, the programmed amounts are based on an assumed \$1 million in FY 2006 and \$2 million in FY 2007 for habitat management and monitoring activities (shown as PE in Table 1), \$20 million in FY 2006 and \$30 million in FY 2007 for habitat acquisition with an additional \$4 million in economic benefit funds in FY 2007 (shown as RW in Table 1), and \$10 million for habitat restoration efforts beginning in FY 2007 (shown as CON in Table 1). Actual expenditures would be based on future actions of the Regional Planning Committee, Transportation Committee, and Board of Directors.

It is anticipated that SANDAG's Commercial Paper program will be used to fund the EMP expenses through FY 2008. Interest costs over this time period will be funded through the *TransNet* Highway program with such funds being reimbursed once the EMP funding becomes available in FY 2009. Total programmed is \$67 million.

#### County of San Diego

SANDAG notified its member agencies to identify local projects as candidates for early action (to be included with the EAP) and requested project information and funding need. To date the County of San Diego is the only agency to identify projects to be funded from borrowing from the *TransNet* extension. The two projects described below will be funded from the *TransNet-LSI* (Local System Improvements) program.

#### East Mission Road (CNTY25):

This new project would reconstruct an existing three-lane road to four lanes with left turns and sidewalks. Total project is \$1.5 million in *TransNet-LSI* funds.

#### Street Improvements (CNTY26):

This new project is a lump sum for various street improvements, including road reconstruction to provide for bike lanes, construction of curbs and gutters, sidewalks, and drainage improvements. Total project is \$7.1 million in *TransNet-LSI* funds.

#### City of Solana Beach

Lomas Santa Fe/I-5 Interchange (SB01):

As reported in project CAL09 above, the auxiliary lane and interchange part of this project is being transferred to Caltrans to be incorporated as part of the I-5 HOV/ML project. The City will continue work through the right-of-way phase and relinquish the construction phase to Caltrans. Total project is reduced to \$3.5 million.

#### **Fiscal Constraint Analysis**

Federal regulations require the 2004 RTIP to be a revenue-constrained document with programmed projects based upon available or committed funding and/or reasonable estimates of future funding. Funding assumptions are generally based upon:

- (1) authorized or appropriated levels of federal and state funding from current legislation;
- (2) conservative projections of future federal and state funding based upon a continuation of current funding levels;
- (3) the most current revenue forecasts for the *TransNet* program; and
- (4) the planning and programming documents of the local transportation providers.

With the passage of the *TransNet* Extension, SANDAG is in the process of developing financing strategies to fund major transportation projects, including the EAP. On May 20, 2005, the SANDAG Transportation Committee approved an interim financial strategy for the *TransNet* EAP, including the expansion of SANDAG's Commercial Paper program to \$335 million, to be augmented by short-term notes as needed, to accommodate the cash flow needs of the EAP projects through FY 2008. In addition, available *TransNet* revenues will be utilized to fund the three projects carrying over from the current *TransNet* program to the *TransNet* Extension (SR 52, SR 76, and Mid-Coast projects). Longer term strategies will be included with the Plan of Finance, the biennial RTIP update, and the RTP update.

An overview of the program, available revenues by funding sources, and the various assumptions and forecasts are discussed in detail in Chapter 4 of the Final 2004 RTIP. Table 2 provides updated program summaries, Table 2a shows the total revenues available to fund the programmed projects, and Table 2b outlines the additional capacity on hand. Based on this analysis, sufficient capacity exists to implement the 2004 RTIP, including the projects in Amendment No. 9.

#### **Air Quality Analysis**

On July 23, 2004, SANDAG found the 2004 RTIP in conformance with the Regional Air Quality Strategy/ State Implementation Plan (RAQS/SIP) for the San Diego region. All of the required regionally significant capacity increasing projects were included in the quantitative emissions analysis conducted for the 2004 RTIP, as amended.

Projects in Amendment No. 9 meet the conformity provisions of 40 CFR 93.122(g). All capacity increasing projects in Amendment No. 9 were included in previous regional emission analysis of the 2030 RTP and 2004 RTIP, as amended (SANDAG Board approval March 28, 2003, US DOT approval April 9, 2003). All other projects are either non-capacity increasing or are exempt from the requirement to determine conformity according to §93.126 of the Transportation Conformity Rule. SANDAG followed interagency consultation procedures to determine that these projects are exempt. Amendment No. 9 does not interfere with the timely implementation of TCMs. Table 3 provides an update to the TCM projects programmed in the 2004 RTIP. The 2004 RTIP, including Amendment No. 9, remains in conformance with the SIP.

# RESOLUTION NO. 2005-26

# APPROVING AMENDMENT NO. 9 TO THE 2004 REGIONAL TRANSPORTATION IMPROVEMENT PROGRAM

WHEREAS, on July 23, 2004, SANDAG adopted the 2004 Regional Transportation Improvement Program (RTIP) and found the 2004 RTIP in conformance with the 1998 Regional Air Quality Strategy (RAQS) and the 2002 Ozone Maintenance Plan; and

WHEREAS, on March 28, 2003, SANDAG made a finding of conformity of the 2030 Regional Transportation Plan (RTP) with the State implementation Plan (SIP) and the 1998 RAQS; and

WHEREAS, the US Department of Transportation issued its conformity finding to the 2030 RTP on April 9, 2003; and

WHEREAS, on April 22, 2005, SANDAG made a finding of conformity of the 2030 RTP and 2004 RTIP, as amended, to the 8-hour ozone standard; and

WHEREAS, on May 20, 2005, the U.S. Department of Transportation issued its conformity finding of the 2030 RTP and 2004 RTIP, as amended, to the 8-hour ozone standard; and

WHEREAS, agencies have requested project revisions for inclusion into the 2004 RTIP, as shown in Table 1; and

WHEREAS, the proposed amendment is consistent with the 2030 RTP; and

WHEREAS, the regionally significant capacity increasing projects have been incorporated into the quantitative air quality emissions analysis and conformity findings conducted for the 2030 RTP and the 2004 RTIP Amendment No. 9; and

WHEREAS, projects in Amendment No. 9 satisfy the transportation conformity provisions of 40 CFR 93.122(g) and all applicable transportation planning requirements per 23 CFR Part 450; and

WHEREAS, the 2004 RTIP Amendment No. 9 relies on the previous regional emissions analysis; and

WHEREAS, all other projects in Amendment No. 9 are either non-capacity increasing or exempt from the requirements to determine conformity; and

WHEREAS, the 2004 RTIP Amendment No. 9 is a fiscally constrained document as shown in Tables 2 through 2b; and

WHEREAS, consistent with Section 7 of both the initial *TransNet* Ordinance and Expenditure Plan and the *TransNet* Extension Ordinance and Expenditure Plan, the *TransNet* funds programmed for the I-15 middle segment (project CAL18) are provided as a loan to be repaid through the programming of a like amount of state and/or federal funds (plus interest costs) towards a *TransNet*-eligible project in the future. In addition, financing costs associated with the early implementation of the Environmental Mitigation Program (EMP – project SAN48) through FY 2008 are to be covered by the *TransNet* Highway program with such funds to be reimbursed once the EMP program funding becomes available in FY 2009; and

WHEREAS, the SANDAG Board of Directors delegated the authority for RTIP amendments, including findings of air quality conformity, to the Transportation Committee; NOW THEREFORE

BE IT RESOLVED that the Transportation Committee does hereby approve the attached Table 1 as Amendment No. 9 to the 2004 Regional Transportation Improvement Program.

BE IT FURTHER RESOLVED that SANDAG finds the 2004 RTIP, including Amendment No. 9 in conformance with the SIP and RAQS for the San Diego region, is consistent with SANDAG Intergovernmental Review Procedures, and is consistent with SANDAG Public Participation Policy, as amended.

PASSED AND ADOPTED this 3<sup>rd</sup> day of June 2005.

Solana Beach, City of

MPO ID: SB01

Capacity Status: NCI

TITLE: Lomas Santa Fe Drive/I-5 Interchange

DESCRIPTION: Add loop ramps and auxiliary lanes on I-5 north & southbound

Change Reason: Reduce funding, construction of interchange and auxiliary lanes transferred to Caltrans (see CAL09)
